Referencje

"I worked with Kosma on a marketing project. It was a demanding assignment, carried out under extreme time pressure and with no room for error. Thanks to his openness and strong focus on the goal, we managed to complete it efficiently. I especially appreciate his flexibility and reliability, qualities that are increasingly rare these days and which Kosma clearly shows. The best show their strength in difficult conditions."

Witold

Project Manager | Experienced sales director and managing director (Premiera, GAZ, InterCars S.A.)

"I had the pleasure of working with Kosma Kurlowicz on an animal welfare campaign in Olsztyn, where he created a full series of multimedia assets for social media — from concept and script to visuals and final editing. Kosma is a creative, responsible and ethics-driven Multimedia Content Creator who combines AI tools with great design sense and authenticity. Kosma creates trend-conscious yet neutral content without overuse of AI or artificial hype. He is also an active animal welfare volunteer. I recommend him wholeheartedly."

Beata

Global Head of Securities, Pricing and Events (Citibank Europe Plc Poland Branch)

"Kosma developed a beautiful website for us two years ago. The design, user experience and general architecture of the website are great. Recently, as we were experiencing server issues, Kosma generously stepped in to help, despite her contract having ended. The website got fixed in no time. Definitely recommended!"

Loïc

Minority Rights Group

"The cooperation went smoothly, although the project itself was quite abstract in terms of the aesthetic concept and content of the website. It was easy to communicate with the team to discuss the site's functionalities in detail. We wanted the website to be professional and transparent, but still interesting. And that's what she is! We also have no problems with its operation, and operating its functionality from the administrator level is very intuitive. If I need to introduce new content to the website, I know that I can do it quickly and the whole thing will always look good and consistent."

Justyna

Uniwersytet Jagielloński

"I have been running the foundation for 15 years. During this time, I have had the opportunity to work with many contractors. Kosma from Chaos&Cosmos focuses primarily on the effect we are striving for, not on the remuneration, which is never high. He knows how to listen and ask questions that redefine the problem. He finds solutions. Chaos&Cosmos created websites for the Albatros Foundation, designed visual identification and organized international conferences, prepared media for printing. The effect of their work always exceeds my expectations."

Ewa

Fundacja Albatros

"Thank you for the great cooperation! Kosma Kurlowicz and his team prepared a website for one of our research projects. We are very pleased with the final result, Kosma is very objective, specific and communicative. We recommend 😊 Positive: Responsiveness, Quality, Professionalism, Value."
